PROGRAMME HIGHLIGHTS

Our maritime educational programmes are targeted to produce graduates in specific maritime-related fields, allowing them to contribute directly to the global maritime value chain in supervisory to middle management roles. These academic programmes are designed by both academicians and industry professionals to provide students with in-depth knowledge and understanding of maritime transportations particularly within the context and complexity of the global supply chain environment. All our programmes are approved and accredited by the Malaysian Qualifications Agency (MQA) and the Ministry of Higher Education (MOHE). Some of the diplomas are also recognised as professional programmes by the Chartered Institute of Logistics and Transport Malaysia (CILT).

Our academic programmes are externally audited and approved by NMUC global university partners. This recognition provides a valuable platform and conduit to pursue higher education abroad. Upon completing 2.5 years at NMUC, the students will be granted ADVANCED STANDING at NMUC global university partners, enabling them to gain entry into the final year of bachelor's degree and graduate within just 1 to 1.5 YEAR at the respective universities.

Members of:

MANAGEMENT COURSES

Duration:
2.5 year
(7 semesters)

Entry Requirement: Pass in SPM (Sijil Pelajaran Malaysia) or 'O' Levels with any three (3) credits or equivalent (minimum requirement)

DIPLOMA IN MARITIME TRANSPORTATION MANAGEMENT

R2/840/4/0025 (MQA/FA0226) 01/28

Diploma in Maritime Transportation Management focuses on the commercial aspect of maritime transportation. It is treated as an end-to-end process that begins with the source of the cargo to the end destination. Primary discussions central to the Maritime Transportation Management field cater towards the business development of the commercial maritime fleet while exploring innovative measures in diversifying the supply chain process associated with maritime transportation and logistics.
